LANGE CLINICAL NEUROLOGY AND NEUROANATOMY: A LOCALIZATION-BASED APPROACH

Aaron L. Berkowitz

An engagingly written text that bridges the gap between neuroanatomy and neurological disease?

Clinical Neurology and Neuroanatomy delivers a clear, logical discussion of the complex relationship between neuroanatomical structure and function and neurologic disease. Written in a consistent, easy-to-read narrative voice, this unique text offers a concise overview of fundamental neuroanatomy and the clinical localization principles necessary to diagnose and treat patients with neurologic diseases and disorders. Unlike other neurology textbooks that either focus on neuroanatomy or clinical neurology, Clinical Neurology and Neuroanatomy integrates the two in manner which simulates the way neurologists learn, teach, and think.

Clinical Neurology and Neuroanatomy is divided into two main sections: The first section, Neuroanatomy and Neuroanatomical Localization, covers the neuroanatomy necessary for neurologists working in.

Aaron Berkowitz, MD, PhD (Boston, MA) Department of Neurology, Brigham and Women's Hospital; Assistant Professor, Harvard Medical School.

LANGE Q&A PSYCHIATRY, 11TH EDITION
Sean Blitzstein

The most thorough psychiatry review available for the USMLE Step 2 CK and psychiatry clerkship exam – completely updated to reflect the DSM

Covering all of the clerkship's core competencies, LANGE Q&A Psychiatry delivers more than 800 exam-style questions and answers with concise but comprehensive explanations of correct and incorrect answer options. The Eleventh Edition of this trusted review simulates the USMLE Step 2 CK test-taking experience by delivering multiple-step clinical vignette questions and updates on the latest therapies for psychiatric diseases and disorders. Questions are carefully selected to match the style and difficulty level of what students will face on the test.

Sean M. Blitzstein, MD is Director, Psychiatry Clerkship and Clinical Associate Professor of Psychiatry at the University of Illinois at Chicago.
The cornerstone text on sports and exercise medicine

Brukner & Khan’s Clinical Sports Medicine is the world-leading title in sports and exercise medicine, providing an authoritative foundation for clinicians and students. This complete practical guide to physiotherapy and musculoskeletal medicine covers all aspects of diagnosis and contemporary management of sports-related injuries.

This fifth edition has been expanded to accommodate a much higher level of evidence-based content. It reflects the huge amount of new research and significant changes in thinking since the fourth edition was published.

For this volume, Injuries, all chapters have been comprehensively updated by sports physiotherapists and sports physicians at the top of their fields from around the world.

There are more than 300 new figures and tables, as well as six new chapters including

- Training programming and prescription
- Return to play
- Pain: the clinical aspects
PHARMACOTHERAPY PRINCIPLES AND PRACTICE, FOURTH EDITION: BOOK AND STUDY GUIDE

A Dollar-Saving Pharmacotherapy Package That Provides Students With a Solid Foundation, Along With Actual Cases That Demonstrate How to Apply Concepts

This great package includes two essential books:

Pharmacotherapy Principles & Practice, Fourth Edition

Pharmacotherapy Principles & Practice, Fourth Edition uses a solid evidence-based approach to teach you how to design, implement, monitor, and evaluate medication therapy. This trusted text provides everything you need to gain an in-depth understanding of the underlying principles of the pharmacotherapy of disease—and their practical application. In order to be as clinically relevant as possible, the disease states and treatments discussed focus on disorders most often seen in clinical practice, and laboratory values are expressed as both conventional units and SI units.

Marie A. Chisholm-Burns, PharmD, MPH, FCCP, FASHP is Professor and Head, Department of Pharmacy Practice and Science, The University of Arizona College of Pharmacy, Tucson, Arizona.

Terry L. Schwinghammer, PharmD, FCCP, FASHP, BCPS is Professor and Chair, Department of Clinical Pharmacy, West Virginia University, School of Pharmacy, Morgantown, West Virginia.

Barbara G. Wells, PharmD, FASHP, FCCP, BCPP is Professor and Dean, Research Institute of Pharmaceutical Sciences, School of Pharmacy, The University of Mississippi, Oxford, Mississippi.

Patrick M. Malone, PharmD, FASHP is Professor and Associate Dean, Internal Affairs, College of Pharmacy, The University of Findlay, Findlay, Ohio.

Jill M. Kolesar, PharmD, BCPS, FCCP is Professor, University of Wisconsin School of Pharmacy, and Director,
CRITICAL CARE EMERGENCY MEDICINE, SECOND EDITION

David A. Farcy, William C. Chiu, John P. Marshall, Tiffany M. Osborn

The groundbreaking text on critical care emergency medicine – updated and expanded to reflect this rapidly developing field

Critical Care Emergency Medicine has become the standard reference for all clinicians who wish to understand the overlap between emergency medicine and critical care. Written by experienced emergency physicians and intensivists, the book is unique in incorporating both perspectives into the practice of emergency medicine and critical care.

Critical Care Emergency Medicine teaches emergency physicians everything they must know and do to better care for critically ill patients in an emergency department or to provide care in an ICU. Enhanced by numerous algorithms that speed decision making and full-color illustrations demonstrating anatomy and technique, this book is an essential practice tool.

David Farcy, MD, FAAEM, FACEP, FCCM (Miami Beach, FL) is Chair of Emergency Medicine, Director of Emergency Medicine Critical Care, Medical Director of the Surgical Intensivist, Mount Sinai Medical Center, Miami Beach, Florida.

Michael C. Chiu, MD, FACS (Baltimore, MD) Associate Professor of Surgery, Medical Director, Surgical ICU, Program Director, Surgical Critical Care and EM Critical Care, University of Maryland Medical System, Adam Cowley Shock Trauma Center.

John Marshall, MD (Brooklyn, NY) Chairman, Department of Emergency Medicine, Maimonides Medical Center.

Tiffany Osborn, MD (St Louis, MO) Associate Professor, Surgery Acute and Critical Care Surgery, Washington University.
HARRISON'S RHEUMATOLOGY, FOURTH EDITION
Anthony S. Fauci, Carol A. Langford

Rheumatology – as only Harrison’s can cover it

Featuring a superb compilation of chapters related to rheumatology that appear in Harrison’s Principles of Internal Medicine, Nineteenth Edition (including content from the acclaimed Harrison’s DVD, now appearing in print), this concise, full-color clinical companion delivers the latest knowledge in the field backed by the scientific rigor and authority that have defined Harrison’s. Readers will find content from renowned editors and contributors in a carry-anywhere presentation that is ideal for the classroom, clinic, ward, or exam/certification preparation.

Anthony S. Fauci, MD (Bethesda, MD) is Director, National Institute of Allergy and Infectious Diseases, NIH.

Carol Langford, MD (Cleveland, OH) Director of the Vasculitis Center, Cleveland Clinic Foundation.

ANESTHESIOLOGY SELF-ASSESSMENT AND BOARD REVIEW: BASIC EXAM

Jeff Gadsden, Dean Jones

A Q&A-based self-assessment guide to help readers ace the American Board of Anesthesiology’s new BASIC certification examination

Anesthesiology Self-Assessment: BASIC Examination is a resource for readers preparing to take the first of two high-stakes new written exams, which are now necessary for board certification in anesthesiology. Test takers must pass these exams to continue their training. This book contains 800 multiple choice questions, with explanations of both correct and incorrect answers, covering the 200-plus topics in the content outline provided by the Board of Anesthesiology for the first of these exams. The book is also a great review of all fundamental aspects of anesthesiology for practicing anesthesiologists and anesthesiology faculty at academic institutions.

Jeff Gadsden, MD, Associate Professor of Anesthesiology, Duke University School of Medicine, Durham, NC.

Dean Jones, MD is a staff anesthesiologist at Delta Hospital in Vancouver, BC.

WEINBERG'S COLOR ATLAS OF PEDIATRIC DERMATOLOGY, FIFTH EDITION

Leonard Kristal, Neil Prose

An unsurpassed visual archive of pediatric dermatology -- with more than 300 brand-new color images

Color Atlas of Pediatric Dermatology contains a collection of more than 1000 full-color images that provide invaluable guidance for the diagnosis of both common and rare skin disorders of neonates, infants, and children. For each condition reviewed in the text, one or more clinical photographs are supplied, making differential diagnosis faster, easier, and more accurate. A concise, yet thorough overview of important clinical features, etiology, prognosis, and the most current therapeutic approaches is included for each disorder illustrated. Every page reflects the book's magnificent atlas format, with photographs linked to brief text that authoritatively describes the condition illustrated in each image, along with, in most cases, a one-sentence summary of suggested treatment protocols.

Leonard Kristal, MD (Lake Success, NY) is Clinical Associate Professor of Dermatology and Pediatrics, New York University School of Medicine, New York, New York and Long Island Jewish Medical Center, New Hyde Park, New York.

Neil S. Prose, MD (Durham, NC) is Associate Professor, Departments of Dermatology and Pediatrics, Duke University School of Medicine, Durham, North Carolina.

**GENERAL SURGERY EXAMINATION AND BOARD REVIEW**

Robert Lim, Daniel Jones

High-yield preparation for certification exams in general surgery

*General Surgery Examination and Board Review* is a fresh, exciting new title that fills the need for a board review guide where other texts have fallen out of relevance. The format is modeled after Graber and Wilbur’s *Family Practice Examination and Board Review*, which has been one of the most successful titles in the Specialty Board Review series. Each chapter consists of cases, followed by a Q&A related to each case.

*General Surgery Examination and Board Review* matches the published exam blueprints for surgery to ensure that the coverage of topics mirrors the actual exam. For general surgery residents preparing for certification and practicing surgeons preparing for recertification, this guide is perfect for both written and oral board prep.

Robert B. Lim, MD (Bethesda, MD) is an assistant professor of surgery at the Uniformed Services University of Health Sciences.

Daniel B. Jones, MD (Boston, MA) is a professor of surgery at Beth Israel Deaconess Medical Center.

Precision Medicine
A Guide to Genomics in Clinical Practice

Jeanette J. McCarthy, Bryce A. Mendelsohn

A complete how-to-guide for incorporating precision medicine into any type of practice

The Application of Precision Medicine is a practical, succinct, high-yield book for medical professionals who want to learn how genomic medicine can and should be practiced in their specific field of interest. Unlike similar books on the subject, this unique text bypasses the basic science and more advance genetic science, and focuses solely on what a practitioner needs to know on a daily basis.

The Application of Precision Medicine follows the course of a human life, beginning before conception through pregnancy, childhood, and adulthood, discussing the current and future applications of genomics and precision medicine at each stage. This organization allows healthcare providers to easily find the information relevant to their practice.

Jeanette J. McCarthy, MPH, PhD (San Francisco, CA) Adjunct Associate Professor, University of California, San Francisco.

LANGE CRITICAL CARE
John M. Oropello, Vlad Kvetan, Stephen M. Pastores

*A practical, concise, and up-to-date reference for the ICU*

*Lange Critical Care* delivers concise, highly clinical coverage of the surgical and medical aspects of critical care. The book provides basic fundamentals, applications, and insights that will be of lasting value to all ICU physicians, nurses, advanced care providers, and allied personnel who care for the critically ill and injured patients in all ICUs. Noteworthy features include a well-illustrated Clinical Care Procedures section, high-yield summaries of the full spectrum of essential critical care topics, and the inclusion of “Controversies” chapters throughout each section addressing some of the ambiguous aspects of critical care.

This timely book also covers the growing scope of critical care provided outside the ICU and the increasing importance of critical care services within the hospital structure.

John Oropello, MD (New York, NY) is Professor of Surgery and Medicine and Director of the Surgical CU at Mount Sinai Hospital.

Vladimir Kvetan, MD (New York, NY) is Professor of Clinical Medicine at Albert Einstein College of Medicine.

Stephen M. Pastores (New York, NY) is Director of Critical Care Medicine Fellowship Program at Memorial Sloan Kettering Cancer Center.

SURGERY REVIEW ILLUSTRATED 2/E
Lisa McElroy, Travis Webb

The one-stop study guide for both the oral and written surgical exams – now in full color

Hailed by Doody’s Review Service as the book that “admiringly achieves its stated intention, namely to provide a comprehensive review for ABS examinations,” Surgery Review Illustrated, 2nd Edition, deliver an effective combination of top-quality illustrations and board-style Q&A not found in any other text.

A true essential when preparing for certification, recertification/maintenance of certification, the ABSITE, or as a clinical refresher, this unique resource delivers more than 1,200 exam-style questions that reflect the content and structure of the written boards. Comprehensive answer explanations to all questions are linked to pathophysiology and evidence-based clinical studies. Readers will also find more than illustrations and photographs depicting radiology, gross pathology, surgical procedures, and clinical examples – making it ideal for the identification-based oral exam.

Travis Webb, MD (Milwaukee, WI), Associate Professor of Surgery, Medical College of Wisconsin.

Lisa McElroy, MD (Milwaukee, WI) General Surgery Resident, Medical College of Wisconsin.
Clinical Neuroanatomy, Twenty-Eighth Edition offers an accessible, easy-to-remember synopsis of neuroanatomy and its functional and clinical implications. Since many of us learn and remember better when material is presented visually, this acclaimed resource includes not only clinical material such as brain scans and pathological specimens, but also hundreds of diagrams and tables that are designed to be clear and memorable.

- NEW SECTION summarizes the most important take-away lessons from each chapter
- More than 300 full-color illustrations
- A unique chapter on Introduction to Clinical Thinking puts neuroanatomy in clear clinical perspective
- Numerous CT and MRI scans
- Block diagrams illustrate actions of each muscle (essential for the clinical motor examination)
- Hundreds of diagrams and tables encapsulate important information
- Essentials for the Clinical Neuroanatomist list appears in each chapter

Stephen G. Waxman, MD, PhD is Bridget Marie Flaherty Professor Neurology & Pharmacology, Director, Neuroscience & Regenerative Research Center, Yale University School of Medicine.
PHARMACOTHERAPY: A PATHOPHYSIOLOGIC APPROACH, TENTH EDITION

Joseph T. DiPiro, Robert L. Talbert, Gary C. Yee, Gary R. Matzke, Barbara G. Wells, L. Michael Posey

The landmark text on how to achieve optimal patient outcomes through evidence-based medication therapy

Pharmacotherapy: A Pathophysiologic Approach is written to help readers advance the quality of patient care through evidence-based medication therapy derived from sound pharmacotherapeutic principles. The scope of this trusted classic goes beyond drug indications and dosages to include the initial selection, proper administration, and monitoring of drugs. Readers will find everything they need to provide safe, effective drug therapy across the full range of therapeutic categories.

This edition is enriched by more than 300 expert contributors, and every chapter has been revised and updated to reflect the latest in evidence-based information and recommendations.

Joseph T. DiPiro, PharmD, FCCP (Richmond VA) is professor and Archie O. McCalley Dean of the Virginia Commonwealth University School of Pharmacy.

CURRENT PRACTICE GUIDELINES IN PRIMARY CARE 2017
Joseph S. Esherick, Evan D. Slater, Michelle B. Azimov

Guidelines for more than 60 common outpatient conditions drawn from the most reliable sources

CURRENT Practice Guidelines in Primary Care 2017 provides readers with quick access to screening, prevention, and treatment guidelines for more than 60 common outpatient conditions. Content is drawn from a wide array of recommendations from government agencies, expert panels, medical specialty organizations, and other professional and scientific organizations.

CURRENT Practice Guidelines in Primary Care 2017 contains more than 20 brand-new topics that healthcare providers must be familiar with, making this an essential clinical companion in the primary care setting. Each topic is carefully selected for relevance to the office practice of ambulatory medicine, and the text is filled with with clinical pearls, easy-to-apply take home points, and guideline-based algorithms designed to simplify clinical decision-making.

Joseph S. Esherick, MD (Ventura, CA) is Medical Director of Critical Care Services and Associate Director of Medicine at Ventura County Medical Center, and Associate Clinical Professor of Family Medicine at David Geffen School of Medicine.

Evan D. Slater, MD (Ventura, CA) is Director of Hematology and Medical Oncology at Ventura County Hospital, and Assistant Clinical Professor of Family Medicine at David Geffen School of Medicine.
